

Harbour City & Times Square

Landmarks Harbour City and Times Square account for an exceptional 8% share of total retail sales throughout Hong Kong, and represent 51% of the Group's total business assets and 62% of operating profit.

China Properties

Property Development is an additional cylinder for growth. From a land bank in Mainland China of over 100 million square feet, only 3.7 million square feet were recognised in 2009 but operating profit surpassed HK\$1 billion for the first time, at an attractive margin of 33%.

Modern Terminals

Revenue and operating profit were challenged by the global economic downturn. Yet favorable finance costs and effective cost initiatives mitigated Modern Terminals' net profit decline to 4%.

Other Businesses

The Group's portfolio also includes Other Properties, Hotels, Communications, Media and Entertainment (CME), and Transportation.

Corporate Social Responsibility

Wharf's commitment to Building for Tomorrow extends to corporate social responsibility and organizational development. The Group is firmly committed to the sustainability of the community.
